VOCALBOOTH™ PRODUCT SERIES

VB Diamond Series™

VB Platinum Series™

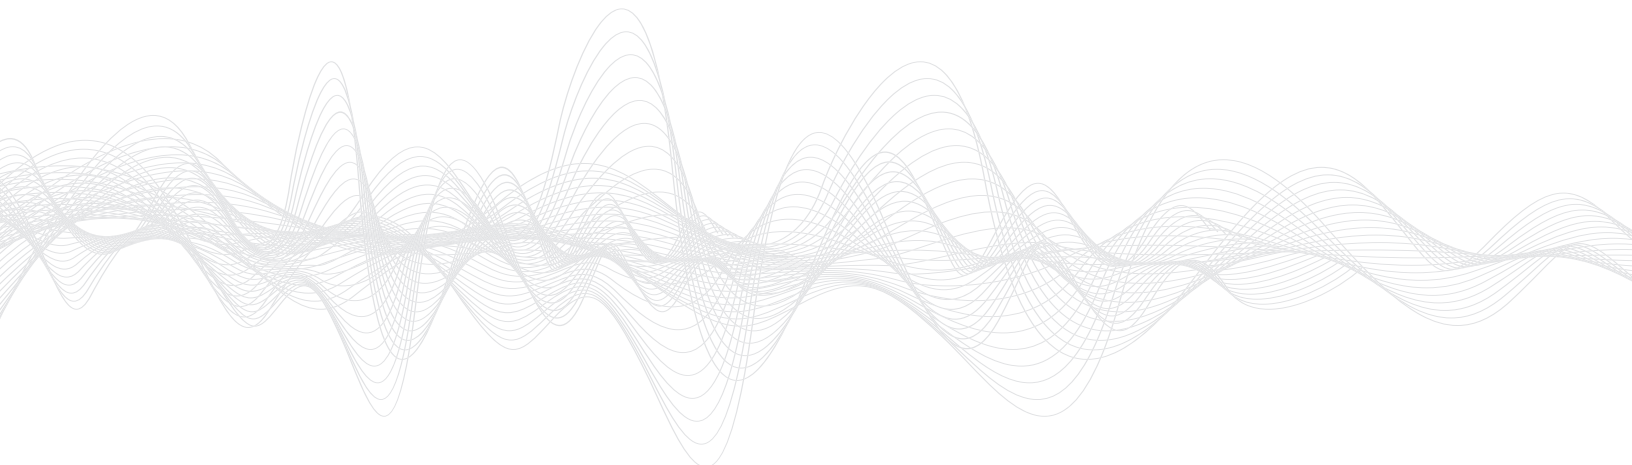

VB Gold Series™

VB Silver Series™

Four models to choose from—*VB Diamond, Platinum, Gold and Silver Series™ VocalBooths™* offer different levels of performance and options. Our four models have been developed to tailor a sound room to meet your sound control/ isolation requirements and budget. Each completely enclosed system includes lighting, sealable cable ports, active quiet ventilation, optional windows and unlimited customizations. Vocalbooths™ are easy to assemble requiring no special tools.

A VocalBooth™ standard shaped VB Platinum, Gold and Silver Series range in size from 4' x 4' to 16' x 16' (exterior dimensions). Our pentagonal shaped VB Diamond Series VocalBooth™ is available in four space saving sizes (3,5,10 and 14 carat). VB Silver and Gold Series VocalBooths™ are single-wall design, the VB Platinum Series is a more soundproof double-wall design and the VB Diamond Series, named for its shape, is designed to utilize the corner of a room and comes in single and double-wall designs. Custom sizes and options are available.

Recommended ceiling room height is 8' for assembly purposes. VocalBooths™ can be custom cut for spaces with lower ceilings and can be increased in height as well. Easy to read directions allow you to assemble most booths in just a few hours.

VB Diamond Series™

Designed to utilize the corner of your room—we created a pentagonal shaped VocalBooth™. Our five-sided *VB Diamond Series™* provides a space saving solution for tight quarters. The VB Diamond Series takes up less floor space than a standard booth but offers similar volume. This unique design has non-parallel walls to reduce standing waves. It is available in four sizes and comes in either our VB Gold or Platinum Series™ wall construction.

Standard features include:

-
- Wall-to-wall interior acoustic foam
- Heavy gray exterior fabric
- Light (USA only) and multiple cable ports that are big enough to allow as many cables as you will most likely use

Optional upgrades include:

- Variety of exterior colors
- Auralex foam or fabric wrapped interior with a selection of colors
- Hardwood floors
- Caster wheels
- VB Vent Silencer™ upgrade
- Custom heights

VB Diamond Gold Series™, 5-Carat

(2) 3' x 3' wall windows, custom 3' x 5' door window, purple fabric wrapped foam interior, hardwood floor, standard gray exterior

VB Diamond Platinum Series™, 14-Carat

3' x 3' wall window, 2' x 2.5' door window, black exterior, hardwood floor, standard gray interior

VB Diamond Platinum Series™, 14-Carat

(3) 3'x3' wall windows, 1'x2' door window, hardwood floor, standard camel blonde exterior and interior

VB Platinum Series™

Our double-wall designed *VB Platinum Series™* is our premium sound reduction VocalBooth™. This booth is recommended for customers with significant sound isolation needs. Unlike the standard acoustic foam interior of the VB Silver and Gold Series™, the VB Platinum Series has an acoustic fabric wrapped interior. Sizes available, similar to the VB Gold Series, range from 4' x 4' to 16' x 16'.

Standard features include:

- Active fan driven ventilation
- Acoustic fabric wrapped interior
- Heavy gray exterior fabric
- Light (USA only) and multiple cable ports that are big enough to allow as many cables as you will most likely use

Optional upgrades include:

- Variety of exterior colors
- Auralex foam treatments or a fabric interior with a selection of colors
- Hardwood floors
- Caster wheels
- VB Vent Silencer™ upgrade (recommended for recording)
- Windows (*VB Platinum Series windows are double-paned glass unlike the single paned VB Silver or Gold Series windows*)
- Custom heights

Please note: The VB Platinum Series is expandable in size.

VB Platinum Series™ 6' x 6'

3'x3' wall window, standard exterior and interior

VB Platinum Series™ 12' x 12'

(3) 3'x3' wall windows, camel blonde interior

VOCALBOOTH™ PRODUCT SERIES CONTINUED

VB Gold Series™

For use in just about any professional situation, the *VB Gold Series™* is our most popular VocalBooth™. Similar to the *VB Silver Series™*, the *VB Gold Series* is a single-wall design but with an added ½" absorption material for greater sound reduction. In addition to a thicker wall, the *VB Gold Series* has a heavier duty door and is an overall more robust system.

The *VB Gold Series* is available in sizes ranging from 4' x 4' to 16' x 16' and includes all standard features and wall-to-wall acoustic foam.

Standard features include:

- Active fan driven ventilation
- Gray wall-to-wall interior acoustic foam
- Heavy gray exterior fabric
- Light (USA only) and multiple cable ports that are big enough to allow as many cables as you will most likely use

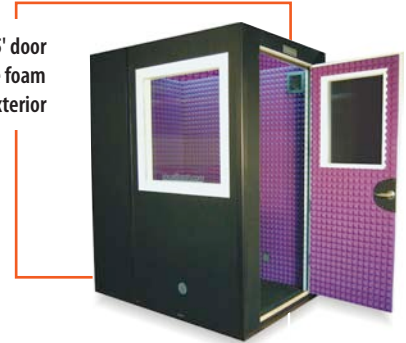

Optional upgrades include:

- Variety of exterior colors
- Auralex foam treatments or a fabric interior with a selection of colors
- Hardwood floors
- Caster wheels
- VB Vent Silencer™ upgrade (recommended for recording)
- Windows
- Custom heights

Please note: The VB Gold Series can be upgraded later on in size and can be transformed into the more sound proof VB Platinum Series if desired.

VB Gold Series™ 4' x 6'

3' x 3' wall window, 2' x 2.5' door window, Auralex purple foam interior, black exterior

VB Gold Series™ 8' x 10'

3' x 3' wall window, 2' x 2.5' door window, Auralex purple foam interior, black exterior

VB Gold Series™ 6' x 8'

3' x 3' wall window, camel blonde exterior, standard interior

VB Gold Series™ 4' x 6'

(2) 3' x 3' wall windows, 2' x 2.5' door window, hardwood floor, Auralex blue foam interior, black exterior

VB Silver Series™

Our most economic VocalBooth™ is the *VB Silver Series™*, a single-wall design for applications needing extra isolation or sound reduction. Often this booth is used in preexisting studios with minimal exterior sound issues. The VB Silver Series is great if you're looking for that extra bit of sound isolation for clean, non-colored audio recording.

Available in 4' x 4' size only, this booth is a great addition for home and project studios on a budget. The VB Silver Series includes all standard features and wall-to-wall acoustic foam interior.

Standard features include:

- Active fan driven ventilation
- Gray wall-to-wall interior acoustic foam
- Heavy gray exterior fabric
- Light (USA only) and multiple cable ports that are big enough to allow as many cables as you will most likely use

Please note: All windows are considered optional accessories, as well as caster wheels and a vent silencer upgrade which is recommended for recording applications.

VB Silver Series™ 4' x 4'
